Session - 4 on Commercialization of Patent was conducted by Dr. H. Purushotham. He made the audience aware of the step leading to patent commercialization and routes for the commercialization of patents. He also discussed, so many patents are granted, but why only a few are commercialized. He also threw light on the key issues in technology commercialization and licensing agreements and challenges in IP commercialization from R and D labs. Over and above, he mentioned the critical success factors for technology commercialization and the importance of IP protection in start-ups and MSMEs. At last, he also shared few success stories of technology developed and commercialized by NRDC, New Delhi.
